

COUNTY FINANCES SHOW FAVORABLE BALANCE FOR YEAR

For First Time Co. Trustees
Have no Deficit—
\$91,000 Saved

The report of the expenditures of Lake county for the fiscal year ending June 1st, as made to the county board of supervisors last week, showed a balance of \$955.85. This is the first time in many years that the county has not exceeded the annual appropriation. A year ago the finance committee reported a deficit of \$65,631.67.

The appropriation for the year had been \$404,900 but the board were able to shave it down by \$91,000 by a record breaking economy in purchase and maintenance. A number of bills long outstanding have been retired and the county is not now faced with a deficit.

Whether continued economy will bring as good results next year is considered questionable, in view of the fact that, under the present ruling, the county hospital will lose between \$20,000 to \$30,000 of its annual income. That institution exceeded its appropriation of \$50,000 by \$3,941.09 during the past year.

Besides the hospital four other departments exceeded their drawing account. They were the departments of elections, printing and supplies, and birth and death certificates. The total overdraft amounted to \$7,632.56.

The greatest economy was effected in expenses for poor claims. Of the \$50,000 set aside to be devoted to this work, \$31,000 was spent with a saving of \$18,886. The county also closed its accounts with

of \$4,790, and salaries to the major were shaved from \$41,000 to \$38,000. The miscellaneous dose at noon on able to report an week during the month, \$3,943 and August.

Natural gas, a boon for maintenance, shooting debris, offices, workmen, digging ditches and public hundreds of feet this fiscal year was covered in the addition to the fact that the east river was than for the pre-gravel year.

Antioch Lake Claims Chicago Boy as Victim

Joseph Dollue, age 17, 1122 E. 65th street, Chicago, was drowned Sunday in Slocum Lake near Waukegan when he dived from a rowboat in which he had been riding.

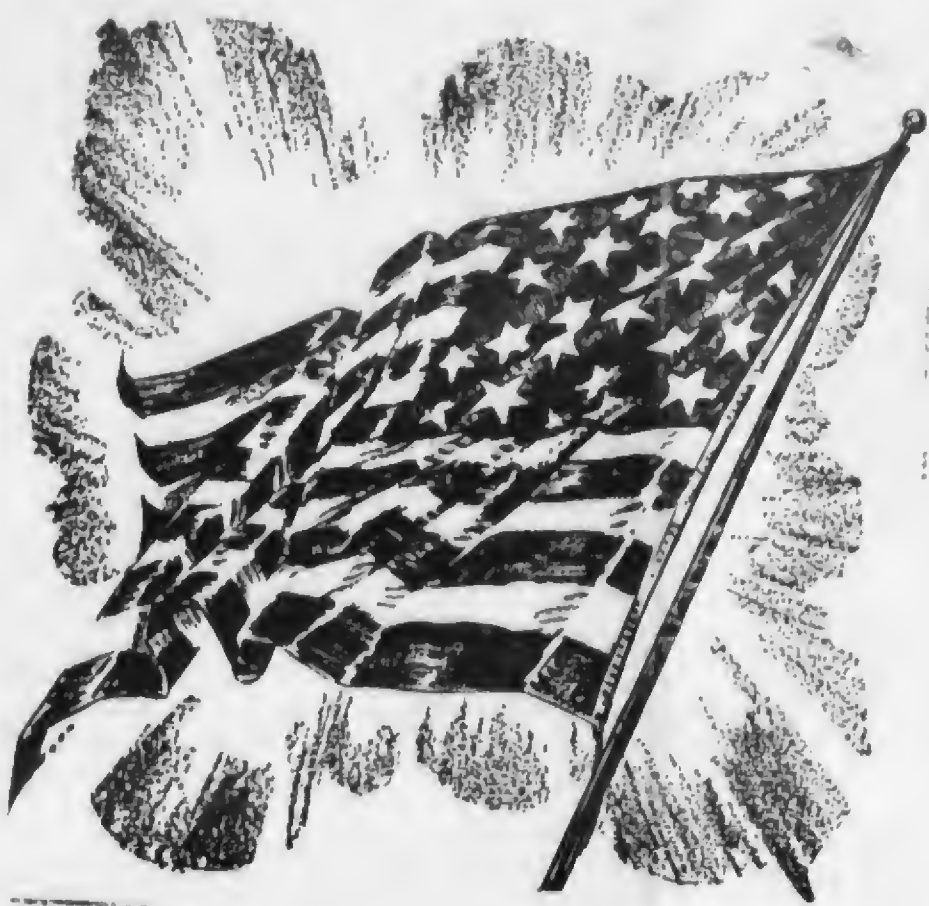

With Dollue were his sister and another girl. He came to the surface once and shouted frantically for help, whereupon the girls rowed to the spot with all haste but he never came up again. Efforts were made at first to locate the boy by diving and when these proved unavailing authorities resorted to dragging.

Aid was summoned from the Waukegan city force and Gar Leaf, beach life guard, went to the aid of Deputy Edward Dunn, and the body was found Monday after many hours of combing the lake with grappling hooks.

Dollue had graduated last week from a Chicago High School and had come with his parents to the lake for a two week's vacation. It is presumed that the boy's drowning was the result of a cramp.

D. V. B. School Has Successful Session

The Community D. V. B. School operating with the cooperation of both churches this year, was a big success. The staff of teachers have been most loyal and have done their work efficiently as is evidenced by the regular attendance throughout the two weeks. The girls made a study of Japan, learning how these neighbors live, then making a Japanese village of paper. The boys have been busily engaged in the wood working shop making many artistic and useful things for the home. The teaching force deserve great praise for giving their time to the training of the boys and girls in our community.

Here is our text for this, the one hundred and forty-ninth anniversary of the signing of the Declaration of Independence: That the destiny of this republic is guaranteed neither by history nor tradition, however glorious, but lies in the hands of millions of Americans now alive.

ANTIOCH JUDGING TEAM WINS FOURTH IN STATE CONTEST

A. T. H. S. Boys Come
Close to Top in
State Meet

The Antioch Township High School Fat Stock Judging team came within 73 points in a total of 2100 of winning the state championship and representing Illinois at the Royal Livestock Show at Kansas City. Dixon, DeKalb, and Milford surpassed Antioch by close margins. In the first days work Antioch placed 3rd. The next day they made considerable gains but were unable to overcome the points of their two opponents, Dixon and DeKalb. The Milford team made the best showing the second day and just supplanted Antioch in 3rd place by a few points.

Roy McNeil, who attends school at Antioch and lives in Avon Township, was high man on the team placing 5th as an all around judge of horses, beef cattle, swine, and sheep in Illinois. Harlan Craft and Lloyd Atwell, his team mates, did some excellent work in both days' judging. A pretty pink ribbon was awarded the school. Roy McNeil was also awarded a ribbon.

The grain team, represented by Elmer Monnier and Harold Kennedy, just missed being placed in the first ten high teams. The poultry team, made up by Elmer Barthel and William Schwenk, did some fine work and stood rather high but did not place in the first ten teams.

The Dairy Team, consisting of Philip Simpson, Gordon Martin and Donald Cremlin, did not work true to form, but nevertheless were above the average.

Considering that 101 schools were represented at the University of Illinois this year, Antioch has had

Bairstow Case Is Carried Into Court

Suits were filed Monday against George H. Bairstow, ex-supervisor of Waukegan township, and his bondsmen, calling upon them to return to the township the sum of \$54,000 claimed by Supervisor Matt Dilger as being owed to the township by the defendant. Bairstow, one of the defendants, is reported as saying that the money would be turned over to the township before the suit was called.

VANDALS' BULLETS HIT FARM HOUSE

Occupants are Awakened in Middle
of the Night by Random
Shots

Two shots fired by marauders at the signs put up by the Antioch Business club at the corner of Beach Grove and Fox Lake road went wild of the mark Sunday night and penetrated the home of Mr. and Mrs. Robert Runyard. The shooting occurred at 1:25 a. m. standard time. Mr. Runyard was away at the time, having been called to the bedside of a sick sister, Mrs. Norris Proctor, at Chetek, Wis. Mrs. Runyard, her father, Lon Little, and son, were at home when the shots were fired. One shot struck the cement and the other went through the front window of the Runyard home.

The occupants of the car, two in number, were driving a Chevrolet coach.

Some fast competition, but nevertheless has done much better than in previous years.

Coach C. L. Kutt states that he is more than pleased with this year's results and believes that in the future the boys will take a greater interest in judging of fat stock than they have in the past.

LOCAL BOY SCOUTS GO TO SUMMER CAMP

Program of Scoutcraft, Sports and
Summer Activities to be Held
at Lily Lake, Wis.

Five of the local Boy Scouts will leave for Camp Sauganash, Wisconsin, where they will join about sixty boys from the Waukegan-North Chicago Council to study scout craft. The boys from Antioch, Ill., in the absence of Scoutmaster A. M. Krahl will be in charge of the Council Headquarters under the direct leadership of Eagle Scout Bob Alvera.

Scouting is one of the best boy organizations in America today and any boy going into a scout camp will be greatly benefitted. The principles of scouting as taught tend to develop the whole boy, soul and body.

The following boys from Antioch will go into camp on Friday. Bob Alvera, Harold Hoffman, Harold Nelson, Leonard Krahl and Dan Williams. Several employed boys are eager to go but as the camp would break into the holidays when the boys are needed most at their places of business they must remain at home.

Young Men Overturn Canoe at Loon Lake

Dan Pedt of this place and a friend Don Elmwood of Chicago narrowly escaped drowning Tuesday afternoon when their canoe capsized in the middle of Loon Lake. No one was on the lake at the time of the accident and the boys were placed in a precarious position as the water was unusually rough, but they were finally successful in bringing themselves and their craft to land. They had just decided to return to shore because of the roughness of the water when the accident occurred. In turning the canoe they caught the broadside of a wave and were overturned.

CITIZENS CONSIDER ADDITIONAL STREET IMPROVEMENT; FOUR MORE PAVING JOBS IN SIGHT

Antioch Fireman
Honor Retiring Chief
Engineer at Banquet

Retiring fire department Chief engineer Art Rosenfeldt was the guest of honor at a banquet given by the local fire department at the Blue Willow Inn Tuesday evening. Other guests of the occasion were Assistant State Fire Marshall Berstrom of Springfield, Fire Chief Sara O'Farrell of Waukegan, Mayor Hussey of Lake Villa, the board of trustees of the village of Antioch, W. O. Winch, Richard Macek and Attorney E. M. Runyard of Waukegan.

After the dinner members and their guests listened to impromptu speeches from each of the guests and the members of the village board.

Tax Payers to Meet With Improvement Board Tuesday

Numerous complaints having been heard about the condition of the unpaved streets of the village, together with the fact that paving could be done at an economy this year since the village is in the business, have prompted the village board of local improvements to call upon all property owners on Orchard, and Spaulford streets, and Ida and Park ave, to attend a public meeting of the village board of trustees on Tuesday, July 5th, at 8 o'clock. It is the intention of the board to hear all who are interested in the paving of the streets referred to.

All of the streets in question are in bad condition, necessitating rebuilding in order to put them in any kind of condition. It is thought by many that paving will prove a greater economy than would the policy of regrading and graveling because of the fact that the graveling would only be in use a short time until it would have to be done over. It is also anticipated that the work could be done now, while there is a grading outfit operating in the city, at a much greater economy than it could be done at some later date.

No opposition developed in the hearing of the Center street paving petition which was scheduled for a public hearing before the board of local improvements last evening. The Depot street project is scheduled to be heard in court on July 9th. If the project to pave these four streets goes through, this will bring Antioch's program for the year up to nine streets and will make this one of the best paved little villages in the region. It will establish a record of which the community can justly be proud.

AUTO TRAGEDY IS NARROWLY AVERTED

Two Cars Collide on Route No. 83
—All the Occupants are
Injured

Tragedy was narrowly averted on Sunday afternoon when a Studebaker car owned by a Chicago man ran into the Auburn Eight belonging to George Sims of 7345 So. Park ave, Chicago. The accident occurred about six-thirty on route 83, about a quarter of a mile north of the village limits.

The driver of the Auburn was forced to make an abrupt turn to avoid collision with some cars which had come to a stop on the highway. He is said to have driven into the path of the Studebaker which was approaching from a side road.

Several people, occupants of both cars, were hurt. The injured were brought to Antioch where Dr. Warner and Beebe took care of them, and all were able to return to Chicago Sunday night.

Farm Bureau Picnic To Be Held on July 13th

The annual Lake County Farm Bureau picnic which is to be held at Diamond Lake has been changed from Thursday, July 14, to Wednesday, July 13th.

This change was made as all the business houses in practically all of the towns in Lake county are closing Wednesday afternoons, and the bureau wishes to cooperate with them.

The merchants of Libertyville and Mundelein are offering many prizes for the contests. A carload of limestone has been donated by one of the large stone companies.

Sam H. Thompson, president of the American Farm Bureau Federation will be the principal speaker of the day. Everyone is invited to attend this picnic.

UNITED CHARITIES APPEAL FOR AID

How Many Families In Antioch and Vicinity Will Take a Poor Little Child for Outing?

Hot weather in Chicago's crowded tenement district is a serious menace to little children. There are no trees to shade them from the boiling sun, the streets are dirty and the air dust laden; flies and mosquitoes are in abundance everywhere. The pavement fairly sizzles and the sidewalks actually burn the little bare feet that pitter over them.

Strong men become exhausted; horses are overcome; dogs go mad. Is it any wonder then that little children become sick and die.

The green fields of the country, with its large shady trees and cool refreshing streams are a veritable paradise to these little youngsters. Their little lungs respond to the fresh pure air; their pale tired faces light up with the new life that burns within them. They romp and play to their hearts' content and their troubles vanish like the morning dew. Two weeks of this life together with plenty of good food and rest stores up enough energy and vitality in their little bodies to carry them, not only through the balance of the summer, but the long winter months as well.

Every one of these Ten Thousand children in Chicago's Tenements should be given an opportunity to enjoy the recreation and rest which the country offers them. When it means so much to them—health, happiness and to many even life itself—can you take a passive attitude toward their condition? Suppose that some of these kiddies were compelled to remain in their miserable circumstances because enough people did not answer this appeal? Wouldn't you feel a little personal responsibility on their account?

All you have to do is to open your home to them as your guests for two joyous weeks. How many will you take?

Wouldn't you be one of the hospitable people of the Antioch community to take one or more of these tenement "kiddies" for a two weeks' outing this summer? Talk it over with your friends and form a summer outing committee to arrange a glorious two weeks' "visit" in Antioch for twenty or more of these needy little "shut-ins."

The News will be glad to co-operate with any of our citizens in securing a group of the needy children for an outing in Antioch; and make it five times that number if possible.

The time to decide is right now. The United Charities knows which children most need outings. It will make all arrangements for getting them to Antioch and home again without any expense to those who will become hosts to the children.

CHRISTIAN SCIENCE CHURCHES

"CHRISTIAN SCIENCE" was the subject of the Lesson-Sermon in all Churches of Christ, Sunday, June 25.

The Golden Text was from Isaiah 12:2, "Behold, God is my salvation; I will trust, and not be afraid; for the Lord Jehovah is my strength and my song; he also is become my salvation."

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "I have yet many things to say unto you, but ye cannot bear them now. Howbeit when he, the Spirit of truth, is come, he will guide you into all truth: for he shall not speak of himself; but whatsoever he shall hear, that shall he speak: and he will shew you things to come" (John 16: 12, 13).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Divine Science derives its sanction from the Bible, and the divine origin of Science is demonstrated through the holy influence of Truth in healing sickness and sin. This healing power of Truth must have been far anterior to the period in which Jesus lived. It is as ancient as the Ancient of days; it lives through all life, and extends throughout all space" (p. 146).

Synthetic Rubber

During the World war when Germany was cut off from supplies of crude rubber a great effort was made to produce synthetic rubber. Toward the close of the war about 150 tons of synthetic rubber were being produced monthly in Germany from isoprene derivatives, but the product was inferior to natural rubber and really served well only in hard-rubber goods. The industry ceased at the close of the war.

A CASE WHERE YOU LOSE IF YOU WIN

By W. R. MOREHOUSE
Public Relations Commission, American Bankers Association
(This is one of a series of articles exposing the wiles of sharpers who are after your money.)

EVERY person who takes part in one of the many fake real estate raffles that are going on wins because there are no losers, regardless of the numbers they hold. The numbers, in fact, are only the bait to entice people into the scheme. The raffles are what might be termed "come-on" traps to catch investors. If you have ever tried your luck with a real estate raffle you doubtless felt like giving three cheers when advised that you had won, not knowing that in winning you had taken your first step toward being caught in the trap. You were momentarily overcome with joy over your success which looked to you like the "luck of a lifetime."

Puffed over your good fortune, you hastened out to inspect your newly acquired piece of property. A high-pressure salesman representing the syndicate that was "giving" you the lot walked by your side. After a tiresome trip through an undesirable district the salesman pointed out your new real estate holdings—a narrow, shallow lot, unimproved, uneven, and with no conveniences such as water, sewer, gas and electricity. Not even graded streets or sidewalks. Not worth its taxes!

Before you were fully awake to the fact that you had been tricked your attention was directed away from the unattractive landscape before you to another picture. You were shown another lot, ideal in its location with all modern conveniences soon to be installed, and told that if the lot you drew in the raffle was not entirely satisfactory you would be allowed a credit of \$250 for it on one of the more desirable lots being sold "to a few selected people as a special inducement and for a short time only," at the bed-rock price of \$950. You were urged to take advantage of your further good fortune at being thus selected and to seize the chance to buy one of these special, ly priced lots.

"Think of it!" exclaimed the high-pressure salesman. "It will take only \$700 cash as we are willing to allow you a credit of \$250."

Where You Begin to Lose

Perhaps, as you stood there,

certain expenses in connection with the transfer, which, however, would exceed the actual value of the prize lot.

There is nothing to be gained in participating in these

There are plenty of legitimate sales. Raffles usually are only bait used to trap you. Of course, you win, but in winning you lose if you go through with it. Before drawing your money out of your savings account to go into a real estate scheme consult your banker or a Better Business Bureau to find out whether it is a bona fide plan. Spend time to save money!

KAPPLE FAMILY
HOLDS REUNION

Seventy Relatives and Friends are at Paul Avery Home for Gathering

Last Sunday at the home of Mr. and Mrs. P. R. Avery on the north shore of Cedar Lake, a reunion of the Kapple family was held. More than seventy relatives were present to enjoy the beautiful day, and the pleasant surroundings and associations. Dinner was served on the lawn and porch at one o'clock.

Many of those present had not met for many years, and some of the newer married people had to get acquainted. The men and boys had a good baseball game, several went in the lake for a swim and some enjoyed boat rides. Mr. Tronson of Antioch came and took a picture of the group on the lawn. Guests were present from Chicago, Oak Park, Libertyville, Waukegan, Wadsworth and Antioch as well as Lake Villa.

Appeal is Made in Lake Co. Hospital Case

Action was started this week in superior court in the case of the Lake County general hospital, in which an injunction has been ordered by the appellate court to prevent the county institution from accepting pay patients of the wealthy class.

The case was appealed by Assistant State Attorney S. H. Block. Board members are anxious to have the higher court review the case as it is feared that the Lake county general hospital will prove a serious loss to the county if the injunction is allowed to hold.

Hitherto the hospital has annually gone over its appropriation and has always operated at a loss. Members of the finance committee told the board last week that the loss would run from \$20,000 to \$40,000 if the institution were allowed to take nothing but charity patients.

A. J. Beauregard Dies As Result of Accident

Soo Passenger Train Kills Valuable Dogs

Art Dibble suffered a loss yesterday morning when five of his blooded police puppies got loose from their kennels and were run over by the Soo Line train. The mother dog and eight pups succeeded in tearing a hole in the wire of their pen and wandered down to the tracks just as the train was coming in. The old dog heard the train and jumped off the track, but the pups cowered together on the spot and were hit by the train. Two of the eight had been caught previously and one will probably recover but the rest were killed outright.

The puppies were valued at \$75.00 each.

Stylish Health Shoe Moderately Priced

This new development in footwear—a fitting companion to the famous Mary Adams Comfort Shoe—proves conclusively that style and corrective features of scientific design may be successfully incorporated in a dress shoe for women.

Another surprising thing is that the Mary Adams Health Shoe, with all of its advantages, sells at such modest prices. Women who have been accustomed to paying a high premium for "corrective" shoes will realize what this means. Here is real shoe economy!

The style illustrated here is of patent leather, three eyelet tie, leather cuban heel with rubber top lift.

Reasonably priced at

\$5.50

Mary Adams Health Shoes are made over lasts which have been designed to provide ample room for all parts of the foot. They are narrow in the heel and free and roomy in the fore part where unrestricted action is so essential.

Lower Fox River District Survey Gives Fair Report

Plans for Drainage in Summer Resorts Are Asked by Trustees

Conditions in the south half of the Fox River Conservancy district were reported to the board of trustees, in session at Geneva Tuesday, as fairly good by Engineer Hansen of the Greeley and Hansen company of Chicago and also by Chief Inspector Frank Smith. They added that much improvement was needed to put the different city plants in better condition. The survey of the south half of the district, from Elgin to Ottawa is complete and the surveying of the north half will be begun at once and completed before the August meeting of the board.

The engineer was instructed to draw plans for drainage systems for summer cottages and subdivisions. Plans are being considered for systems of water control of the Fox River and for the widening and deepening of the different channels connecting the lakes with Fox River.

As this is the first district of this kind organized in this state, the trustees have no precedent to go by, therefore have to work out their own plans.

The purpose of the organization of the board of trustees is to keep any pollution from entering Fox river or any of the feeders of the Fox and their jurisdiction extends, not only to individuals but to villages and cities along the banks of the Fox and its tributaries.

Mr. J. C. James, local realty man, who is one of the trustees was present at the meeting and reports that the board will be glad to have any of the residents of the district communicate with him if they have suggestions or complaints.

Largest of Chipmunks

Townsend's chipmunk is the darkest of the many species of chipmunk in the western states and ranges along the Pacific coast. It is distinctly larger and stronger than its relatives, says Nature Magazine. Chipmunks carry their stores in cheek pouches to some specially selected spot, where they leisurely enjoy their meal and leave a telltale pile of shells and seed coverings. Average adult measurement is 10 inches.

Named for Englishman

The town of Amherst, Mass., was named by Governor Pownall, when it was incorporated in 1750, in honor of Lord Amherst, who in that year had taken Ticonderoga from the French, and later served as commander in chief of the armies in America and as governor of Virginia. He did not found Amherst college, which is named simply for the town.

Silica in Commerce

The geological survey says that silica occurs in nature as a mineral of economic importance in quartz, sand, etc. Good grades of silica are used for glass making. It may also be used in paint, as a wood filler, a wood polisher; in the manufacture of china and porcelain, as an abrasive, a scouring and cleansing agent, and as a heat and sound insulator.

There will be a celebration of the Holy Communion this Sunday at 7:30. The Rev. Fr. Gwyn of Libertyville will be the celebrant.

Those who would like to give flowers for the altar or church decoration during the summer season will get in touch with Mrs. Chase Webb, president of the Altar Guild, and make arrangements with her.

Those who would like to have some part in the work, worship, or service of the church and do not just know what to do, are urged to see Mr. Dixon who has a list of 101 things to do in and about as well as for St. Ignatius' parish.

Everyone is welcome and we hold the Nicene Faith in all its glory. Come and see.

Methodist Notes

Christian Patriots is the sermon theme at the Methodist church on July 3. It is hoped that none will permit their company to keep them away from God's house on the Sabbath. Let your friends know that you have a church home in Antioch and insist that they attend with you. You will enjoy their visit and they will be happier for doing so.

McFADDEN FUNERAL HELD HERE MONDAY

Mass for Lake Villa Man Was Said at St. Peter's Catholic Church Tuesday Morning

William McFadden of Lake Villa died at a hospital in Chicago Monday after a prolonged illness with Bright's disease. Funeral services were held at St. Peter's church, Antioch, Tuesday morning with interment in Mt. Carmel cemetery.

William McFadden was born in Hammond, Indiana, Oct. 12, 1886, and came with his parents to Lake Villa when only a few weeks old. He was the only son of Mr. and Mrs. James McFadden, and has spent nearly all of his life in Lake Villa and vicinity.

For a number of years he worked for the Soo Line railroad as brakemen, but for some time past has been employed as pump man at the station here. He has been very ill for some months. Mr. McFadden, Sr., has been in the employ of the Lehmann and Peacock families ever since coming to Lake Villa and they have given the invalid every attention and the best of medical aid.

Mrs. McFadden passed on some years ago and the death of the son leaves Mr. McFadden alone. The deceased has a wide circle of friends in and around Lake Villa who extend their sympathy to the bereaved father.

NEWS OF STATE CAPITAL IN BRIEF

Passage of the gasoline tax by a vote of 30 to 19 occurred in the senate. The bill was introduced in the house about a month previously by Representative A. Otis Arnold, of Quincy, and was passed there by a good sized majority. The tax of two cents per gallon, to become effective August 1, is expected to yield a return of about \$13,000,000 per year. After the cost of administration, estimated at \$25,000, is deducted, 50 per cent of the balance is to go to the counties, half on the basis of their proportionate share of state license fees, and half on the basis of the actual amount of tax collected.

A bill introduced by Representative Katherine Hancock Goodie in the house and sponsored by Florence Pifer Bohrer in the senate, passed in both branches, provides that school boards may establish classes for persons over 21 years old. The sponsors of the bill hope it will reduce the number of illiterates in Illinois, who were numbered at 173,987 in the 1920 census. Only school boards with surplus funds may establish classes, there being no provision in the bill for an increase of taxes.

hanging sentence for the slayers of the supreme court has upheld the Warden Klein, of the Joliet penitentiary, and Walter Staleskie, Charles Duchowski and Robert Torrex will hang on July 15. Bernardo Roa and Charles Shader, who later escaped from the Will county prison, will hang on the same date, if they are caught. James V. Price has never been found since his original escape with the other six convicts from the penitentiary, and Gregorio Rizo was killed in the last attempt to escape.

Taxes of \$882 levied in 1924 by a school district of Pike county need not be paid by the Wabash railroad since the supreme court has so decided because the certification of taxes had not been made before the first Tuesday in August, as provided by law.

The supreme court has rendered a decision that jail sentences and fines imposed against Harry Winnick, business agent for the Retail Clerks' union, Chicago, and others, for contempt of court in 1925 in maintaining a picket line must stand. The validity of the injunction act was not passed upon and it was stated that even if the validity of the act be assumed it afforded the defendants no immunity from their acts.

Major Herbert A. Dargue, commander of the Pan-American Good Will flight, stopped in Springfield on his way from Washington across country in a seven weeks good will flight to cover 10,000 miles. The purpose of this trip is to give the public the story of the four months flight in which twenty Latin-American nations were visited in order to promote good will and an interest in aviation. Jefferson City, Missouri, was the next stop made by the commander and his party after leaving Springfield.

Warm weather and heated debates have been companions in the legislative halls during the closing sessions. One of the evening house sessions, presided over by Representative William Welles in the absence of Speaker Robert Scholtes, was so heated that a dozen different representatives wanted to be the interpreters of the rules of order. A vote was about to be taken to consider an appeal from the decision of the chairman when a sudden motion to adjourn was carried and relieved the tension.

A resolution, already passed by the house, calling upon the general assembly to send four members to urge the senate to seat Col. Frank L. Smith, of Dwight, was passed by the senate.

Wages of Illinois Traction System trainmen are to remain the same, following six months of arbitration which was settled by a board of three meeting in St. Louis. The decision fixes the scale as it was before the expiration of the wage scale of December 1, 1926.

According to final official figures Justice Clyde E. Stone, Peoria, Republican, re-elected to the supreme court with a total of 30,387 votes, defeated his opponent, Charles C. Craig, Galesburg, by a margin of 5,493.

Illinois is a safe state in which to live, according to the state director

One hundred thousand dollars cash and two surety bonds each for \$50,000.00, were placed in the hands of S. J. Standard, director of agriculture, when Lincoln Fields and Fairmount Jockey Clubs applied for licenses to conduct horse racing and race track wagering on and after July 1st, when the Lager racing act becomes effective.

"License fees are payable in advance," Standard explains. "The Lincoln Fields Club seeks to operate from July 2 to August 12, inclusive, which figures 37 racing days. Racing and wagering on Sunday is not permitted. This, or any track located within 25 miles of a city of more than 500,000 must pay \$2,500 for each racing day. Their secretary Maurice L. Galvin, tenders a certified check for \$92,500.00.

"Fairmount, now operating, will have three days' racing in July, through J. Bruce Head, their secretary, tender a certified check for \$7,500.00, for the three days."

In addition to this \$100,000, which passed into the office of the state treasurer the day it was received, these tracks must pay 20 cents for

each paid admission ticket used while the tracks operate in accordance with the law.

In order to assure obedience to the law, all clubs that obtain licenses must file bonds, collectable in case of non-payment of fees. "The public has my promise," Director Standard stated, "that all that is possible to insure complete compliance with the law will be performed. The law authorizes me to stipulate how much the bond shall be, so long as it does not exceed \$50,000.00. The bond required of any track, whether for one day's races or for the full fifty-one that the law allows, is \$50,000.00—the maximum provision of the act.

"Each of the two tracks that propose to operate in July have placed in my hands a surety bond in the penal sum of \$50,000. Thus far, all requirements of the law have been fulfilled. They will operate legally, under inspection, during the days specified in their applications for licenses.

That the veterinary science of the state of Illinois has conquered that dread disease of horses, known as glanders, is evident from a comparison of indemnity funds paid for animals condemned as victims of that incurable disease, as administered through the division of animal industry. Use the Fanning Mill

Blow out and screen out
the light-weight kernels

A GREAT portion of the oats sown at the present time is done by backing up to the granary with an old end-gate seeder, and sowing in the oats, dirt, light oats and all, then going to the field, and see how many acres can be sown in the least possible time, and yet expect a good crop.

OATS may be cleaned and well graded before sowing, by weight, using plenty of wind. Clean out all the light and pin oats. A large number of farmers do not have such a thing as a fanning mill, and yet expect to raise a big crop by sowing the oats just as they are in the granary. If they expect to increase the yield they must begin to select better oats and grade them by weight, as just screening is not sufficient.

HAGENBECK-WALLACE CIRCUS IS COMING

Greatest of Modern Tent Shows
Will Play in Waukegan
July 11th

Circus fans and enthusiasts are keenly interested in the forthcoming exhibitions in Waukegan on July 11, of the Hagenbeck-Wallace Circus, known as the foremost trained wild animal show in the universe. Many folks from this community are making arrangements to attend the big circus, as Hagenbeck-Wallace universally is known for its high-class performance.

Hagenbeck-Wallace comes this year with an entirely new program, from the grand and glittering opening spectacle, "The Geisha" to the finale, "Blazing Glory." Several hundred people appear in "The Geisha," which is from the pen of Rex De Rosell, noted moving picture author and director. A small fortune has been expended in the purchase of wardrobe costumes from leading New York and Tokio firms, while singers of note will have the principal roles.

Clyde Beatty, Bob McPherson and Capt. Bernard are a few of the famous trainers that will subjugate the jungle brutes in the steel arena. Beatty will work a mixed group of lions and tigers, numbering over twenty, while McPherson will handle fifteen ferocious Siberian tigers. Another mixed group of pumas, leopards, bears and hyenas will be put through their paces by Bernard. Many other wild animal numbers will be presented, as well as displays by domestic beasts.

Prominent aerial features include the Orrin Davenport Troupe of Equestrians and the Ward-Kimball family of flyers. The Davenports are rated among the first American riders, while the Ward-Kimballs are direct from a successful tour of Europe. Other aerialists of note are the Martin Sisters, the Sylvester Trio and the Steele Sisters. Fifty clowns, exactly that number, will scamper about the hippodrome track.

SPECIAL ASSESSMENT NOTICE

NOTICE IS HEREBY GIVEN to all persons interested that the President and Board of Trustees of the Village of Antioch, County of Lake and State of Illinois, having ordered that a local improvement be constructed on portions of Depot street consisting of paving, grading, draining and otherwise improving that portion of Depot Street from the Easterly edge of the concrete pavement on Main street to a point fifty feet westerly of the center line of the right of way of the Chicago, Minneapolis and Sault Ste. Marie Railway Company, known as Antioch Special Assessment docket number 15, the ordinance providing for the same being on file in the office of the Village Clerk of the said Village and being attached to the petition on file in the office of the Clerk of the County Court of the County of Lake and State of Illinois.

Said President and Board of Trustees of said Village of Antioch having ordered that an assessment be levied for the cost of construction of such improvement entitled as aforesaid, and said Village having applied to the County Court of said Lake County for an assessment of the cost of said improvement according to benefits and an assessment roll and report having been made and returned unto said court, the final hearing thereon will be on the 9th day of July, A. D. 1927, at ten o'clock in the forenoon of said day or as soon thereafter as the business of the court will permit.

All persons desiring may file objections in said court on or before said time and may appear on said hearing and make their defense. Said assessment is payable in ten installments with interest at the rate of six per cent per annum on all installments from and after the date of the first voucher.

The total amount of such assessment as shown by the estimate is \$17,744.00 and the total amount assessed as benefits upon the public is \$3,000.00.

Dated at Antioch, Illinois, this 21st day of June, A. D. 1927.

WILLIAM F. ZIEGLER,

The person appointed by the President of the Board of Local Improvements of the Village of Antioch, to make said assessment. 43-44

NORTH SHORE WILL GIVE PUBLICITY TO THE LAKE REGION

Central Bureau Will Give Out Maps and Literature in Chicago

Information regarding Lake country resorts and the region in which the North Shore lines extend is to be furnished to the public from a new bureau established by the North Shore Line at 72 West Adams St., Chicago. The bureau will furnish free of cost detailed information on all communities, summer resorts and vacation spots served by the North Shore Line.

The bureau is to be known as the Outing and Recreation Bureau and furnish free of cost detailed information on all communities, summer resorts and vacation spots served by the North Shore Line, and other high-speed electrically-operated railroads and motor coach lines in and within a radius of 100 miles of Chicago. It will also advise anyone the quickest and most convenient manner of reaching any point in this area, what outing and recreation facilities may be found there and how to make a visit of any desired length at a reasonable cost.

The North Shore company some time ago contracted for the production of 10,000 maps of the Antioch Business club and delivery is being made this week in time for the opening of the bureau. They expect to distribute a large number of the maps advertising Antioch and the region and will give out publicity on resorts in the area.

Branch offices for the advertising of the region will be established at all of the North Shore Line stations, including both rail and motor coach terminals. Assistance also may be obtained in reaching any point in the Chicago metropolitan area served by the Chicago Rapid Transit Company.

"Our main idea in inaugurating this new service is to point out to the public the great outing and recreation facilities near at hand," said H. J. Fallon, vice president in charge of operation. "There is within 100-mile radius of Chicago a wonderland of scenic beauty excellent nowhere else in the world. Throughout this territory there are unlimited facilities for enjoying a vacation or outing at minimum cost and with a minimum amount of pleasure."

"The reason many persons have not taken advantage of these facilities is because they have not known how to do so. Today a network of high-speed electrically operated railroads and fleets of luxurious motor coaches place all these points literally at the doorstep of everyone in this area. It is our desire to assist the public in enjoying this wonderland with the greatest convenience and at the least possible cost."

LOCAL BASEBALL AGGREGATION GETS WIN FROM SLOVAK

Three Bagger by Sullivan and Pitching of Morley Feature Game

The Antioch ball team won its third straight victory Sunday by beating the Slovak A. C. of Zion by a score of 16 to 4. The score was little indication of the character of the game as the locals were never headed after the second inning and outplayed their opponents all of the way. The win gave the Antioch aggregation undisputed possession of third place in the Lake county amateur pennant chase.

Morley pitched great ball for the home team, being invincible in every inning but the eighth, when the visitors earned two runs on an error, a walk, a single by Kabarec and a double by Brey. Morley allowed only 4 hits and struck out 11 while yielding only 2 passes. He allowed only 2 hits the first seven innings and was never in danger of losing. Brey, his opponent on the mound, also pitched good ball. Local sluggers lunched him for only 8 hits, but they made nearly every hit count. Sullivan started the scoring in the second, when he was hit by a pitched ball. Morley, W. Steininger and Hallas followed with singles, good for 3 runs. Antioch added two more in the fifth, Sullivan again being hit. Morley singled and went to third on a wild throw by the catcher and scored on a perfect squeeze play with Captain Simpson laying down a good bunt. The final tally was earned in the eighth when Manager Lasco singled and scored on a triple by Sullivan, the longest hit of the game. The next three men were all thrown out by Lena, the second basemen, who played a great defensive game for the visitors.

Next Sunday the West Side A. C. of Waukegan, leaders in the league, will play the local team at Antioch. They have won eight out of nine games and have a well balanced outfit besides several great sluggers in Kenyon and Macklin, and probably the best catcher in the league in John Doyle, late of the U. of Wisconsin, who caught several games for Antioch some years ago. Dietzneyer, their best pitcher, is undoubtedly the best southpaw in the league and the locals will have to play real ball to be returned a winner. This team walloped Antioch the first game of the season but the locals have been considerably strengthened.

ed by the addition of Morley and Drom, both very good pitchers, who can also play in the infield with more than average ability. They have been playing great ball the last month and are confident of beating the leader.

The locals have completed the first round of the league games and will play each of the other nine teams once more. They are now in third place, 2 games behind the leader. But for several bad breaks and a shortage of pitchers early in the season they would probably have made a better showing. At present their record runs 6 games won and three lost with a percentage of .656. Enthusiasts of the sport look for them to better their record in the second half.

On Monday the Fourth, the Marmon B. H. team of Kenosha, Wis., will play here. They represent the Schmidt Auto Co. and are well up in the race for the Kenosha League title. They should put up a hot contest.

Mr. O. L. Trenary,
College of Commerce,
Kenosha, Wisconsin.

Dear Sir:

I am so fortunate as to have in charge of my office one of your students (Miss Mildred Austin) and it is only due to you, as well as to her, to advise you of her efficiency. I have had a good deal of experience with office help and feel that I am competent to judge and have no hesitancy in saying that she is the best I have ever had. Not only by far the best worker, the most industrious, but best all-round office help.

Whether it comes natural to her or was taught the fact remains that she has all the requirements of a thorough office woman. She is quiet and a perfect lady in every respect. She makes a very good impression on the business men—not merely a pleasant smile but they all say that she can greet them and keep right on with her work. I count myself very lucky indeed to have her if there are any more like her (which I doubt) I will try to make a place for them.

I am particularly glad to give this testimony in view of the fact that I am more or less prejudiced against our business colleges for sending us help recommended as efficient only to find them absolutely useless in an office. I congratulate you on your thorough work in training young people.

Yours very truly,
C. B. CONNER.

Mildred Austin graduated from Brodhead High School June 1925 and from College of Commerce June 1926. She is now 18 years old. This testimonial was entirely unsolicited. O. L. T.
